PROJECT

BLOODBANK MANGEMENT SYSTEM

The Blood Bank Management System is a robust web application built using **React**, **Firebase**, and **Bootstrap** CSS. The system allows users to register as donors, search for available blood types, request blood donations, and track inventory levels. With its user-friendly interface, real-time updates, and secure data storage

ONLINE BOOK STORE

Introducing an innovative online bookstore built using **React**, **Firebase**, and **Bootstrap** CSS. Discover a vast collection of books, explore personalized recommendations, and enjoy a smooth shopping experience. With its intuitive interface and robust functionality, this online bookstore is designed to provide a delightful and convenient platform for book enthusiasts to indulge in their passion for reading.
